

APPLICATION

Electropyrocartridge UDP2-1 is designed for installation in pilot seats K-36DM for:

- Activating of pyrocartridge PK-16M
- Activating of pyrocartridge PK-21M-2
- Activating pyro-valve system for blast protection

TECHNICAL SPECIFICATIONS

Length	42 mm
Diameter	25 mm
Electrical resistance of circuit kindle	1 - 2 Ω
Weight	60 g
Weight of explosive substance	0.64 g
UN Number	0276
ADR Number	1.4C

PACKING

Standard packing consists of 1 electropyrocartridge in hermetic plastic box.
Dimensions \varnothing 61 x 50 mm.
